

# **Material Safety Data Sheet**

#### SECTION 1.1 PRODUCT IDENTIFICATION

#### Product Name: Laurel Leaf Essential Oil

CAS #: 8002-41-3 EINECS #: 283-272-5

# SECTION 1.2 COMPANY INFORMATION

Company: Nature's Fusions Address: 1405 W 820 N, Provo, UT, 84601 Telephone No: 801-872-9500

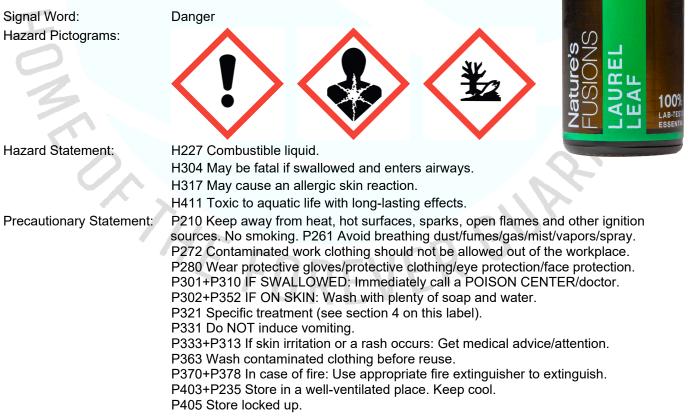

#### 24 HOUR EMERGENCY TELEPHONE NUMBER: (800) 222-1222 POISON CONTROL

# SECTION 2.1 HAZARDS CLASSIFICATION

GHS-US Classification:

Flammable Liquid 4 Aspiration Toxicity 1 Sensitization - Skin 1 Aquatic Chronic Environment 2

#### SECTION 2.2 HAZARDS IDENTIFICATION

# SECTION 2.3 OTHER HAZARDS INDENTIFICATION

SECTION 3. COMPOSITION         Product Name Laurel Leaf       CAS # 8002-41-3       EC# 283-272-5       Concentration 100%         DECIDIN 4.1 DECESSARY FIRST ADD MEASURES         SECTION 9.1 DECESSARY FIRST ADD MEASURES         Measure colspan="2">Concentration if irritation develops and persists. Promptly wash eyes with plenty of water while lifting the eye lids.         Indextor Measures in a position comfortable for Deaching. For breathing difficulties, oxygen may be necessary. Call a physician if symptoms develop or persist.         Pagester       Call a physician or poison control center immediately. If swallowed, rinse mouth with water (Drig) if the person is conscious). Do not induce vomiting occurs, the head should be Ret low so that stomach vomit doesn't enter the lungs.         Sten Contact:       Cate off immediately all contaminated clothing. Get medical attention if irritation develops and Develop is sits. Wash skin thoroughly with scape and water for sure and mutues.         EVECOND A COLSPANDEDOS         Sten Contact:         Let contact with eyes may cause temporary irritation.         Lot diditional information available.         Ingestior:       No additional information available.         Ingestior:       Madditional information available.         Ingestior:       Madditional information available.         Ingestior:       Madditional information available.         In	Other Hazards:	No additional infor	mation available.		
Laurel Leaf       8002-41.3       283-272.5       10%         SECTION 4.1 NECESSARY FIRST AID MEASURES         Eye Contact:       Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists. Promptly wash eyes with plenty of water while lifting the eye lids.         Inhalation:       If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Call a physician if symptoms develop or persist.         Ingestion:       Call a physician or poison control center immediately. If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs.         Skin Contact:       Take off immediately all contaminated clothing. Get medical attention if irritation develops and persists. Wash skin thoroughly with soap and water for several minutes.         Eye Contact:       Direct contact with eyes may cause temporary irritation.         Inhalation:       No additional information available.         Ingestion:       No additional information available.         Ingestion:       No additional information available.         Instance:       May cause an allergic skin reaction. Dermatitis. Rash.         Stin Contact:       May cause an allergic skin reaction. Dermatitis. Rash.		SECTIO	N 3. COMPC	SITION

#### SECTION 5.1 EXTINGUISHING

Suitable Extinguishing media: CO2. Dry Chemical. Alcohol-resistant Foam. Unsuitable Extinguishing media: Water.

# SECTION 5.2 SPECIAL HAZARDS

Special Hazards Arising from Chemical: Fire may produce irritating, corrosive and/or toxic gases.

#### SECTION 5.3 FIRE FIGHTING MEASURES

Laurel Leaf Essential Oil Revision Date: 11/18/2019

Firefighter Instructions:

Protection during firefighting:

In case of fire and/or explosion do not breathe fumes. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Water runoff can cause environmental damage. Ventilate closed spaces before entering them. Keep run-off water out of sewers and water sources. Dike for water control.

Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Structural firefighters' protective clothing will only provide limited protection. Wear self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode when fighting fires.

# SECTION 6.1 ACCIDENTAL RELEASE MEASURES

Personal Precautions:

Keep unnecessary personnel away. Eliminate all sources of ignition. Avoid contact with skin or inhalation of spillage, dust or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them.

Protective equipment: Environmental Precautions: No additional information available.

Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid release to the environment. Retain and dispose of contaminated wash water. Contact local authorities in case of spillage to drain/aquatic environment.

# SECTION 6.2 ACCIDENTAL RELEASE CLEANING MEASURES

Methods and Material for Cleaning Up:

Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps. The product is immiscible with water and will spread on the water surface. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Prevent product from entering drains. Absorb in vermiculite, dry sand or earth and place into containers. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills in original containers for re-use. This material and its container must be disposed of as hazardous waste.

# SECTION 7.1 PRECAUTIONS FOR HANDLING

Revision Date: 11/18/2019

Precautions for handling:

Do not handle or store near an open flame, heat or other sources of ignition. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Avoid breathing vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wash thoroughly after handling.

#### SECTION 7.2 CONDITIONS FOR SAFE STORAGE

Conditions for safe storage: Keep container closed. Handle containers with care. Open slowly to control possible pressure release. Store in a cool, well-ventilated area.

# SECTION 8.1 EXPOSURE AND ENGINEERING CONTROLS

PEL, ACGIH, TLV exposure limit: No additional information available. Appropriate engineering controls: Showers. Eyewash stations. Ventilation systems.

#### SECTION 8.2 PERSONAL PROTECTION/EQUIPMENT

Eye/Face Protection:	Tight sealing safety goggles.
Hand Protection:	Wear chemical resistant gloves.
Skin and Body Protection:	Use of an impervious apron is recommended.
Respiratory Protection:	Chemical respirator with organic vapor cartridge and full facepiece.
Environmental Exposure Control:	No additional information available.

#### SECTION 8.3 ADDITIONAL INFORMATION

Other: Observe any medical surveillance requirements. When using do not smoke. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

#### **SECTION 9.1 PHYSICAL PROPERTIES**

Appearance:	Thin, pale yellow-green liquid.
Odor:	Top note with a strong aroma, Laurel Leaf Essential Oil has a fresh, strong but
	sweet, camphoraceous and somewhat spicy odor.
Odor Threshold:	No data available.
Physical State:	Liquid.

# SECTION 9.2 CHEMICAL PROPERTIES

S Nature's Fusions

Laurel Leaf Essential Oil Revision Date: 11/18/2019

pH: Melting Point/Freezing Point: **Boiling Point:** Flash Point: Evaporation Rate: Flammability (solid, gas): Explosive limits: Vapor Pressure: Vapor Density: Specific Gravity: Solubility: Partition coefficient: (n-octanol/water) Autoignition Temp: Decomposition Temp: Viscosity:

No data available. No data available. No data available. 50.6° C No data available. 0.905 - 0.929 @ 20° C (68° F) Insoluble.

No data available.

No data available. No data available. No data available.

# SECTION 10. STABILITY AND REACTIVITY

Reactivity:

Chemical Stability: Hazardous Reactions: Incompatible Materials: Hazardous Combustion or Decomposition Products: This product is table and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions. No dangerous reaction known under conditions of normal use. Strong oxidizing agents. No hazardous decomposition products if stored and handled as indicated.

ESSENT

# SECTION 11.1 ROUTES OF EXPOSURE

Inhalation: Skin Contact: Eye Contact: Ingestion:

No adverse effects due to inhalation are expected. May be harmful in contact with skin. Causes mild skin irritation. May cause an allergic skin reaction. Causes mild eye irritation.

May be harmful if swallowed. Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.

### SECTION 11.2 RELATED SYMPTOMS

Inhalation: Refer to section 4.2 Skin Contact: Refer to section 4.2 Eye Contact: Refer to section 4.2 Ingestion: Refer to section 4.2

#### SECTION 11.3 OTHER TOXICOLOGICAL INFORMATION

Laurel Leaf Essential Oil Revision Date: 11/18/2019

Delayed/Chronic Effects: May cause allergic reactions on skin, may result in difficulty breathing.

> Acute dermal toxicity: LD50 [Rabbit] - 5000 mg/kg Toxicity: Acute oral toxicity: LD50 [Rat] - 3950 mg/kg Suspected of causing cancer.

Carcinogenic:

# SECTION 12.1 ECOLOGICAL INFORMATION

Eco-toxicity:

Persistence and Degradability: Bio-accumulative: Mobility in Soil: The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. No additional information available.

No additional information available.

No additional information available.

# SECTION 12.2 OTHER ECOLOGICAL INFORMATION

Other Adverse Effects:

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

# SECTION 13. DISPOSAL CONSIDERATION

Waste Disposal Method:

Contaminated Packaging Disposal Method:

Do not discharge into drains, water courses or onto the ground. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

### SECTION 14. TRANSPORT INFORMATION

DOT Shipping (Land): IATA Shipping (Air): IMDG Shipping (Boat): Proper Shipping Name: UN #: Hazard Class: Packaging Group:

Not regulated Not regulated Not regulated Not regulated/Non Hazardous Substance Not regulated Nnot regulated Not regulated

# SECTION 15. REGULATORY INFORMATION

US Federal Regulations: Listed on the United States TSCA (Toxic Substances Control Act) inventory International Regulations: Listed on the Canadian DSL (Domestic Substances List)

Health Hazard (HMIS): 2 Moderate Hazard Flammability Hazard (HMIS): 2 Moderate Hazard Physical Hazard (HMIS): 0 Minimal Hazard Sara 313: None California Proposition 65: This product does n

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm per the Safe Drinking Water and Enforcement Act of 1986.
