## Our Story

Our story is unconventional. We are a Family-Owned Company. In 2009 our sister was diagnosed with cancer and our family began the long road of holistic healing. We found a wealth of information along the way, some good and some not.

Our founder, who is gay, vegan, autistic, and bipolar, created Nature's Fusions from nothing by filling essential oil bottles drop by drop and giving them away to friends and family. He had a passion for plants, a love of medical research, and a simple desire to make the world around him a better place.

Since then we've grown into offering multiple brands. Nature's Fusions Essential Oils, ProHemp, and Nutri Supplements. We've expanded our mission to include helping all people Live Better Longer through providing the best science-backed supplements and herbal products in the world.

*nutri*

Here at nutri we help you achieve your goals of living a better life, for longer, with the best science-backed supplements in the world.

Age doesn't have to match the calendar. You can obtain your optimal life and whole-body wellness through our longevity protocol.

## *Science*

We use only the best science-backed formulas to deliver the nutrients to simply *Live Better Longer*. We continually research new studies focused on optimal living. We use the purest raw ingredients and thoroughly test all products through 3rd party testing.

CLEAN LABEL - no synthetic flavors, colors, or preservatives

## *Longevity*

We want everyone to have the opportunity to Live Better Longer. We research compounds that reverse the body's systems that diminish as we age. At Nutri, we believe aging is more of a disease that can be stopped and even reversed.

## *Effectiveness*

Most vitamins, minerals, and herbs simply don't get to the right place in the body by themselves. Which is why we research and develop the optimal delivery method and combination of ingredients to provide the most absorbable and highest bioavailability supplements in the world.

# Neuro-NAC™

(NAC Ethyl Ester) 100mg

"Can't live without it"- Jamie

## DECREASED GLUTATHIONE LEVELS AS YOU AGE

**Problem:** Glutathione (GSH), the “Mother of all Antioxidants,” naturally decreases as we age.

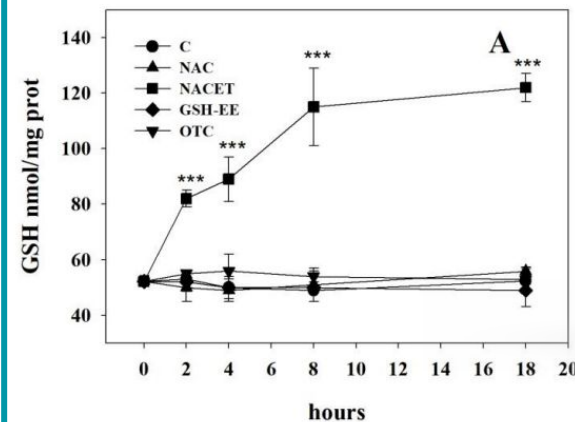

### Glutathione

- Protects from free radicals and oxidative stress
- Protects from cellular degeneration
- Detoxes the body from carcinogens
- Protects against aging

Low glutathione levels increase the rate of all age-related diseases. (Cancer, Alzheimer's, AMD)

### Solutions:

1. Take Glutathione - Poorly absorbed
  - a. Prodrugs (OTC, GSH-EE) - no GSH increase
2. Make Glutathione - Cysteine, Glycine, Glutamic Acid
  - a. Take Cysteine - poor bioavailability, oxidizes into toxic disulphide cysteine
  - b. N-Acetyl L-Cysteine (NAC) - poor bioavailability, pools in gut and liver
  - c. **N-Acetyl L-Cysteine Ethyl Ester (Neuro-NAC)** lipophilic, ultra-high bioavailability

Substantial increase in GSH when using NACET in comparison to any other supplement

# NMN+

## (Nicotinamide mononucleotide with Quercetin Phytosome & Piperine) 300mg

**Problem:** NAD levels naturally decrease as we age.

### NAD+

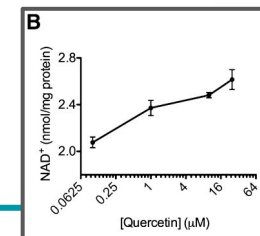

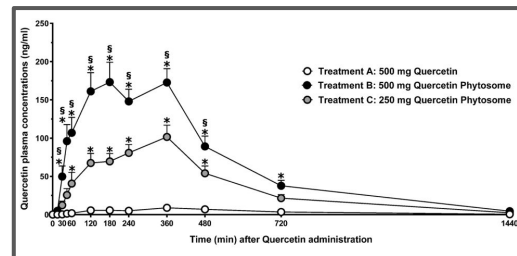

- Vital for cells to function optimally
- Converts nutrients to energy
- Maintains DNA (through PARPs)
- Healthy Aging, Muscle Health, Heart Health, Brain Health, Cellular Energy, Cellular Repair

Low NAD+ levels cause low cellular energy, cellular degeneration, and sleep cycle disruption

### Solutions:

1. Take NAD+ - not successful in increasing NAD+ levels
2. Make NAD+ - B3, TRP, NA, NR, NMN
  - a. B3 - can't increase NAD+ above baseline levels
  - b. TRP - only bring NAD+ to baseline
  - c. NA - Causes Flushing
  - d. Tru Niagen - (NR → NMN → NAD) - 40% increase, degrades into B3, liver only
  - e. **Nicotinamide Mononucleotide (NMN → NAD)** - 40% increase, stable, liver & muscle
3. Inhibit CD38 (CD38 inhibits NAD+ levels)
  - a. Quercetin - Low solubility and low absorption
  - b. **Phytosomal Quercetin** - 20x more bioavailable than Quercetin
  - c. **Black Pepper** - Increase bioavailability of Quercetin

# NMN+

(Ageless nicotinamide mononucleotide with Quercetin Phytosome & Piperine) 300mg

Ageless NMN is Nicotinamide Mononucleotide + Phytosomal Quercetin and Black Pepper

<b>Ageless NMN</b>
40% NAD+ increase
